OWN YOUR AMERICAN DREAM

Indiana's Future: Fiscal Integrity, Jobs, and Education

Financial Security for Future Generations

- Pass a balanced budget by living within our means
- Continue to eliminate wasteful government spending
- Make strategic investments and restorations

Background:

- Indiana is one of 9 states that now have triple-A credit ratings from all 3 agencies.
 - Standard & Poor's, Fitch, and Moody's
- Over the past two legislative sessions, Indiana has eliminated more than 40 government boards and commissions and more than 400 government appointments.
 - 2011: HEA1001, HEA1233, HEA1340, SEA1 & SEA549; 2012: HEA1002
- In September, the National debt surpassed the \$16 trillion mark for the first time. That equates to more than \$50,000 for every man, woman and child in the U.S.
 - *6 Important Historical Moments in our Nation's Debt* – ABC News, September 6, 2012

Bridging the Skills Gap

- Improve career and technical education in high schools
- Increase and support dual credit programs
- Strengthen partnerships between industry and higher education
- Target investments on training programs with high potential

Background:

- 67% of manufacturing companies reported moderate to severe shortage of available, qualified workers. 56% anticipate the shortage to grow worse in the next three years.
 - Boiling point? The skills gap in U.S. manufacturing: A report on talent in the manufacturing industry, sponsored by Deloitte and The Manufacturing Institute
- Indiana received a C- on our ability to provide quality human capital based largely on: first year retention rates at community and technical colleges, the share of associates degrees awarded on a per capita basis, and 8th grade mathematics tests scores.
 - 2012 Manufacturing & Logistics Report – Ball State Center for Business and Economic Research

Leaders in Classrooms: Leaders in Life

- Address key teacher shortage areas, such as math and science
- Promote early childhood education
- Expand education opportunities for Hoosier families
- Enhance partnerships between rural schools and educational groups

Background:

- In Indiana, Science, Technology, Engineering and Mathematics (STEM) skills have stayed in demand even through the economic downturn. There are 2.4 STEM jobs for every 1 unemployed person.
 - Vital Signs – Indiana; *Change the Equation in Partnership with the American Institutes for Research* – 2012
- The likelihood of not completing high school is three times greater for children in poverty vs. those who are not.
 - *Childhood Poverty Persistence: Facts and Consequences* – The Urban Institute, June 2010
- In Indiana, 61% of children (ages 3-4) are not enrolled in preschool. Only 6 states have a higher percentage of children not attending a preschool. National average is 53%.
 - National Kids Count Program; *Children ages 3 to 4 not enrolled in preschool* – 2008-2010
